## Types of Castles

## Motte and Bailey

These castles were built first because they were quick and cheap to build. King William needed castles as soon as possible to defend his new crown. They were made out of wood. It has been said that nearly 1000 motte and bailey castles were built by the Normans.

## Roles in a castle

- The Lord and the Lady would run the castle and be of a high important rank, often being close to the King and Queen.
- Knights were soldiers who had shown to be very brave in battle. They had a Squire to do things for them.
- Squires were young men who shadowed a Knight with the hopes of becoming a knight themselves.
- The cook would make all the meals for those living in the castle.
- Stewards helped the Lord and Lady run the castle and tell everyone what they needed to do.
- The taster in the castle would have to taste the Lord or Lady's food to ensure it was good and did not have poison.
- The Chaplain was the priest in the castle's church. He would be in charge of ensuring the sermons were read and the choir boys knew their songs.
- The Musician would entertain the Lord and Lady and their guests during big feasts.

## Keep and Bailey

When the rebellion against King William calmed down they were able to build Keep and Bailey castles, that took longer to build and were made out of stone.

Some of them are still around today, including Windsor Castle and the Tower of London.
