

Victor the Vet

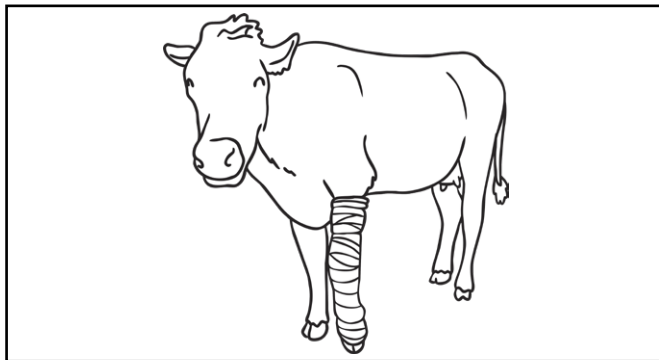

Victor was a vet. He went to fix animals.

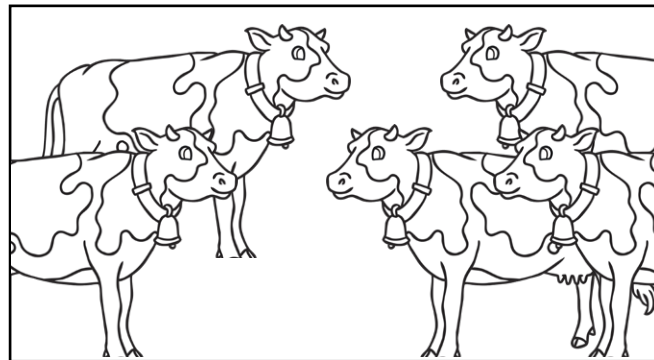

Victor had a van. It was vivid red with a black roof. He went in his van to help the animals if they got sick.

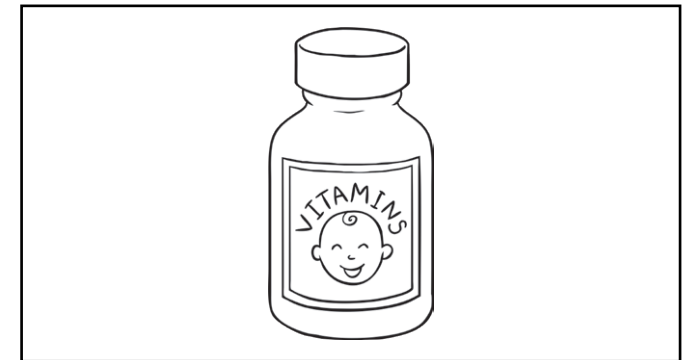

On a winter's night, Victor the vet had to help seven cows. One cow had hurt her leg in the river.

Victor put a strap on the cow's leg to fix it.

The rest of the cows were victims of an illness.

They needed vitamins to feel better.
