

Meadgate Primary School Progression of Skills Maths

Fractions, Decimals and Percentages	
Fractions, Decimals and Percentages (Year 1)	
Fractions, Decimals and Percentages (Year 2)	
Fractions, Decimals and Percentages (Year 3)	
Fractions, Decimals and Percentages (Year 4)	Can they solve simple measure and money problems involving fractions and decimals to two decimal places?
Fractions, Decimals and Percentages (Year 5)	Can they recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal? Can they solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$ and $\frac{3}{5}$ and those fractions with a denominator of a multiple of 10 or 25?
Fractions, Decimals and Percentages (Year 6)	Can they associate a fraction with division and calculate decimal fraction equivalents (for example 0.375 for a simple fraction (for example, $\frac{3}{8}$))? Can they recall and use equivalences between simple fractions, decimals and percentages, including in different contexts?
