

The parts of a plant are called the:

- Roots
- Stem
- Flower
- Petals
- Leaves

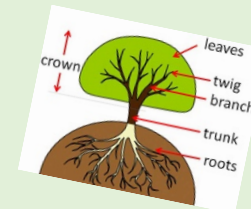

Plants are living things.

Plants grow from seeds or bulbs.

The parts of a tree are called the:

- Roots
- Trunk
- Crown
- Branches
- Twigs
- Leaves

Sunflower, dandelion and rose are the names of some common plants in the UK.

## Year 1: Plants

Oak and cedar are names of common trees in the UK.

Humans eat different parts of some plants.

A plant needs light, water, air and nutrients to grow.

Deciduous trees lose their leaves in winter, but **evergreen** trees keep them all year round.
