Maths	1. Sign in on the vie and go to CONTENT. From there you can click on your brain on Active Learn 2. Log on to: 5-a-day — Corbettmaths Primary and look for today's date. • First choose your level: Bronze — Working towards Year 6 standard Silver — Beginning of Year 6 Standard Gold — End of Year 6 standard Platinum — Above Year 6 standard Platinum — Above Year 6 standard (a good challenge if you can manage Gold) If a level feels too easy — go to the next one; if it is too which may happen as I am not there to support you — please don't worry ②. Simply click on the sheet that comes before and try that. • Then have a go: You can print the sheet if you have a printer or copy out the questions is you can just read from a screen. • Finally, mark your work and correct any errors: 5-a-day January Answers — Corbettmaths Primary click here to mark your work. Look for the correct date and level.

Lunch	Fab work Year 6! Try to help out at lunch time – you know I love these acts of kindness!				
Reading	 Find a good book, a cosy place and have a relaxing readOr Log on to Active Learn – Bug Club and read a book online! Try to read for 15-20 mins. 	Remember to write in your reading record book!			
Computing	Sign in on the vie and go to CONTENT. From there you can click on I have marked and commented on any work submitted last week so you may wish to check that first. In today's lesson we are going to:				

• review the meaning of a digital footprint and understand how and why people use their information and online presence to create a virtual image of themselves as a user.

You have been developing a clear idea of appropriate online behaviour and how this can protect yourself and others from possible online dangers, bullying and inappropriate behaviour. Now you will begin to understand:

• how what you share online impacts upon yourself and upon others in the long term.

Activities

- 1. Open the Applicants database. Look in work-year6-digital footprint database, or open a file and search for it on 2investigate.
- 2. This is a simulation of applicants to a college funded by the local premier league football team Halliwell FC. The college has used online searches about people who have applied to have a place at the college. They have then filled in the information that they can find to help them assess who should be offered a place.

- 3. Look at the record structure by clicking the button.
- 4. Use the database to answer the questions about the candidates on the Digital Footprints Database sheet. I have put this on today's Year 6 webpage, right under this lesson.
- 5. Once you have done this, compare your information that you have collected on the Digital Footprints Database sheet with the information the college collected using the completed resource Applicant Data. This is underneath the first sheet that you have already used.

Did you agree with the college?

Now you can relax and I hope you have a lovely evening.

Stay in contact with each other – it's good for your well-being.

Try to get a little bit of family time in too: even playing a board game or watching a TV programme together can help you feel connected. Maybe try a card game – we have been learning a few more here.

Please email me if you have any worries or questions.

You are doing so well!
