

## Cracking a Code

What place is found at the following coordinates?	
(121, 209)	
(132, 224)	
(125, 227)	
(129, 218)	
(120, 225)	
(136, 227)	
(125, 217)	0
(138, 209)	
Write the circled letters from your answers below:	
Unscramble the letters to spell another location on the map:	
What are its coordinates?
