Meadgate Primary School Special Educational Needs and Disability (SEND) Policy

1. Introduction

The Eveleigh LINK Academy Trust welcomes all children regardless of ability to engage fully in their own learning and to contribute equally to the school community. We invite all families to work with us to nurture enjoyment, success and independence.

It is important for us to know all our children well and to address additional needs as early as possible in order to minimise their long term impact.

2. Definition of Special Educational Needs and Disabilities (SEND)

At Meadgate Primary School, we use the definition for SEND and for disability from the SEND Code of Practice (2015) which states:

SEN: “A child or young person has special educational needs if he or she has a learning difficulty or disability which calls for special educational provision to be made for him or her. A learning difficulty or disability is a significantly greater difficulty in learning than the majority of others of the same age. Special educational provision means educational or training provision that is additional to, or different from, that made generally for others of the same age in a mainstream setting in England”

Disability: “Many children and young people who have SEN may have a disability under the Equality Act 2010 – that is ‘...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities’. This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer.”

We feel that children benefit enormously when school and home form a strong bond, creating trusting relationships whereby parents and carers feel incredibly confident that their child is safe in our school, receiving educational provision that meets their individual profile. To do this we invite ongoing dialogue with you and your children about their needs and how we can work together to best support them.

3. Four Categories for SEND – Broad Areas of Need

- ***Communication and Interaction***, including
 - SLCN (Speech, Language and Communication Needs)
 - ASCD (Autism and Social Communication Difficulties)

➤ **Cognition and Learning;** when children learn at a slower pace than their peers, even with appropriate differentiation. They include:

- MLD: Moderate Learning Difficulties.
- SLD: Severe Learning Difficulties – where pupils are likely to need support in all areas of the curriculum and have associated difficulties with mobility and/or communication.
- PMLD: Profound and Multiple Learning Difficulties – where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.
- SpLD: Specific Learning Difficulties affecting one or more specific aspects of learning. This encompasses a range of areas such as:
 - ❖ Significant and persistent literacy difficulties – may also be known as Dyslexia
 - ❖ Dyscalculia - a specific and persistent difficulty in understanding numbers which can lead to a diverse range of difficulties with mathematics
 - ❖ Developmental Co-ordination Disorder – may also be known as Dyspraxia

➤ **Social, Emotional and Mental Health Difficulties.**

Children and young people may experience a wide range of difficulties that manifest themselves in many ways e.g. becoming isolated, withdrawn, displaying challenging and/or disruptive behaviour. They may reflect underlying mental health, conditions such as anxiety, depression, self-harming, substance misuse, eating disorders or other physical symptoms that are medically unexplained.

This category also includes;

- ADD (Attention Deficit Disorder)
- ADHD (Attention Deficit Hyperactive Disorder)
- Attachment Disorder

➤ **Sensory and/or Physical Needs,** including

- Visual Impairment
- Hearing Impairment
- Multi-Sensory Impairment
- Physical Disability

4. Talking about SEND: Who to talk to and how to contact us – the SEND TEAM

All class teachers (CTs) have had experience in providing for special educational needs and as such are members of the SEND team. You may request an appointment in person to discuss your child's needs by phone or email to meet with your child's class teacher to discuss any concerns you may have.

- Telephone: 01245 259403
- Email: admin@meadgate.essex.sch.uk

CTs are not available for unscheduled meetings before school however, as they are involved in preparing for the day's activities at this time. CTs may also invite you in to discuss your child's needs as matters arise.

The SENDCO who is responsible for the operation of SEND policy and the co-ordination of provision made to support individual pupils with SEND is Mrs Anna Ing. Mrs Ing works at the school on Monday – Wednesday.

- Telephone: 01245 259403
- Email: aing@meadgate.essex.sch.uk

5. Role of the Special Educational Needs Co-ordinator (SENDCO):

- manages the day-to-day operation of the policy;
- co-ordinates the provision for and manages the responses to children's special needs;
- supports and advises colleagues;
- maintains the school's SEND support group register;
- reviews school-based assessment and completes the documentation required by outside agencies and the LA;
- acts as a link with parents;
- maintains resources and a range of teaching materials to enable appropriate provision to be made;
- acts as a link with external agencies and other support agencies;
- monitors and evaluates the special educational needs provision and reports to the governing body;
- manages a range of resources, human and material, linked to children with special educational needs;
- contributes to or arranges the training of class and SEND LSAs and conducts performance management of some SEND LSAs;

- has responsibility for storing, managing and keeping SEND records. Each child has a central file in a locked filing cabinet, which holds all of the important information about each pupil on the SEND Register. Relevant staff may access this with permission. When a child transfers to a new school all relevant information is passed on.

The rest of the SEND team includes Learning Support Assistants (LSAs)

- Class LSAs – help children with classroom activities and work closely with the teacher to provide adjusted (adapted) experiences to suit all levels of learning
- 1:1 LSAs – assigned to work with selected children who have particularly complex and high support needs. These children usually have ‘Education, Health and Care Plans’ (See ‘Graduated Approach’).

Our LSA team are able to deliver interventions and to use a wide range of resources and strategies in class. Where appropriate, they work closely with visitors from outside agencies, such as Speech and Language Therapy, Occupational Therapy and Physiotherapy, to continue providing the support required for children with high support needs between therapist visits.

6. Meadgate School’s SEND Intent:

- To offer all children access to a challenging creative curriculum which is appropriate to their developmental stage of learning and incorporates the National Curriculum and areas of learning from the Foundation Stage Curriculum.
- To provide a curriculum that is ambitious and designed to give all learners, particularly the most disadvantaged and those with special educational needs and/or disabilities (SEND) or high needs, the knowledge and cultural capital they need to succeed in life.
- To encourage children to become independent learners enabling them to respond to new challenges and apply their learning to new situations.
- To foster in the children a sense of belonging and promote acceptable behaviour in the school community.
- To encourage the children to value their achievements and to strive to improve on their personal best.
- To uphold the same academic, technical or vocational ambitions for almost all learners. Where this is not practical – for example, for some learners with high levels of SEND – our curriculum is designed to be ambitious and to meet their individual needs in line with their EHCP outcomes.
- To uphold the intent that all learners study the full curriculum by teaching a full range of subjects for as long as possible, ‘specialising’ only when necessary.
- To comply with the relevant legal duties as set out in the Equality Act 2010, including, where relevant, the Public Sector Equality Duty and the Human Rights Act 1998.

7. Meadgate School's SEND Implementation:

- Class teachers (CTs) have good knowledge of the children they teach and the individual needs that present within their classroom. The SENDCO provides effective support for CTs that are teaching needs of children outside their main areas of expertise, via training and coaching, both on a group and 1:1 basis.
- CTs check learners' understanding systematically, identify misconceptions accurately and provide clear, direct feedback. In response to this, they adapt their teaching as necessary, which may require differentiated approaches to concepts being taught.
- CTs endeavour to help learners to remember content they have been taught over a long term period, implementing additional strategies where necessary to support and develop this skill in all children, including those with additional educational needs.
- CTs, Leaders and the SENDCO use assessment data effectively to help identify areas of need as soon as possible to minimise long term impact on individual children. This information is then used to inform and adapt teaching to meet individual needs.
- A rigorous 'Assess, Plan, Do, Review' cycle is implemented for all children on the SEND register. This ensures that each child has a personal plan of targets and provision, based on the assessment of their individual needs. This cycle is reviewed at least three times annually, with each stage communicated effectively to parents/carers with the aim and intent that they will be involved at every stage of the cycle.
- CTs create an environment that promotes focus of all learners, providing additional and adapted resources where necessary to support learning.
- Teaching of reading is a huge focus for every child regardless of academic ability or need, aimed at developing learners' confidence and enjoyment in reading. This incorporates an extensive range of approaches, beginning with a love of being read to by another and the sharing of books and pictures.
- Meadgate Primary School has adopted a strong fidelity to a Department for Education (DfE) approved phonics scheme, Essential Letters and Sounds (ELS), and strives to ensure the development of reading in all pupils, regardless of age or ability, via the implementation of whole class teaching and individual interventions where additional and different provision is required and possible.
- All teaching staff have received training on the ELS scheme, ensuring they have a sound knowledge of how phonics is being taught throughout the school, regardless of the year group in which they teach.
- We have excellent working relationships with all our local secondary schools. Programmes vary but in each case schools welcome us when we ask for additional visits to enable SEND pupils to accustom themselves to the demands of their new environment. Where appropriate, secondary schools send support specialists to meet with children here at Meadgate Primary School during the preceding summer term, and arrange taster sessions and parent evenings to ensure a smooth transition is implemented.

8. **Meadgate School's SEND Impact:**

- Where possible, barriers to learning are identified early, responded to and minimised, allowing all our learners to develop knowledge and skills across the curriculum.
- Where a child's needs are complex and a separate, individual curriculum is created and implemented, their provision has an impact on their own personal development by evidencing progress in the areas of focus. This may include areas within a classic academic profile regarding maths, reading or writing, or those concerning areas such as engagement, motivation, anticipation, self-confidence, social and emotional areas of communication and speech and language.
- Meadgate endeavours to use its effective welcoming and inclusive practise and careful planning for transition to ensure learners are ready for the next stage of education, supporting them to go on to destinations that meet their interests and aspirations. This includes support for parents and carers in the discussion of any possible options on specialist school placements.

9. **The Graduated Approach**

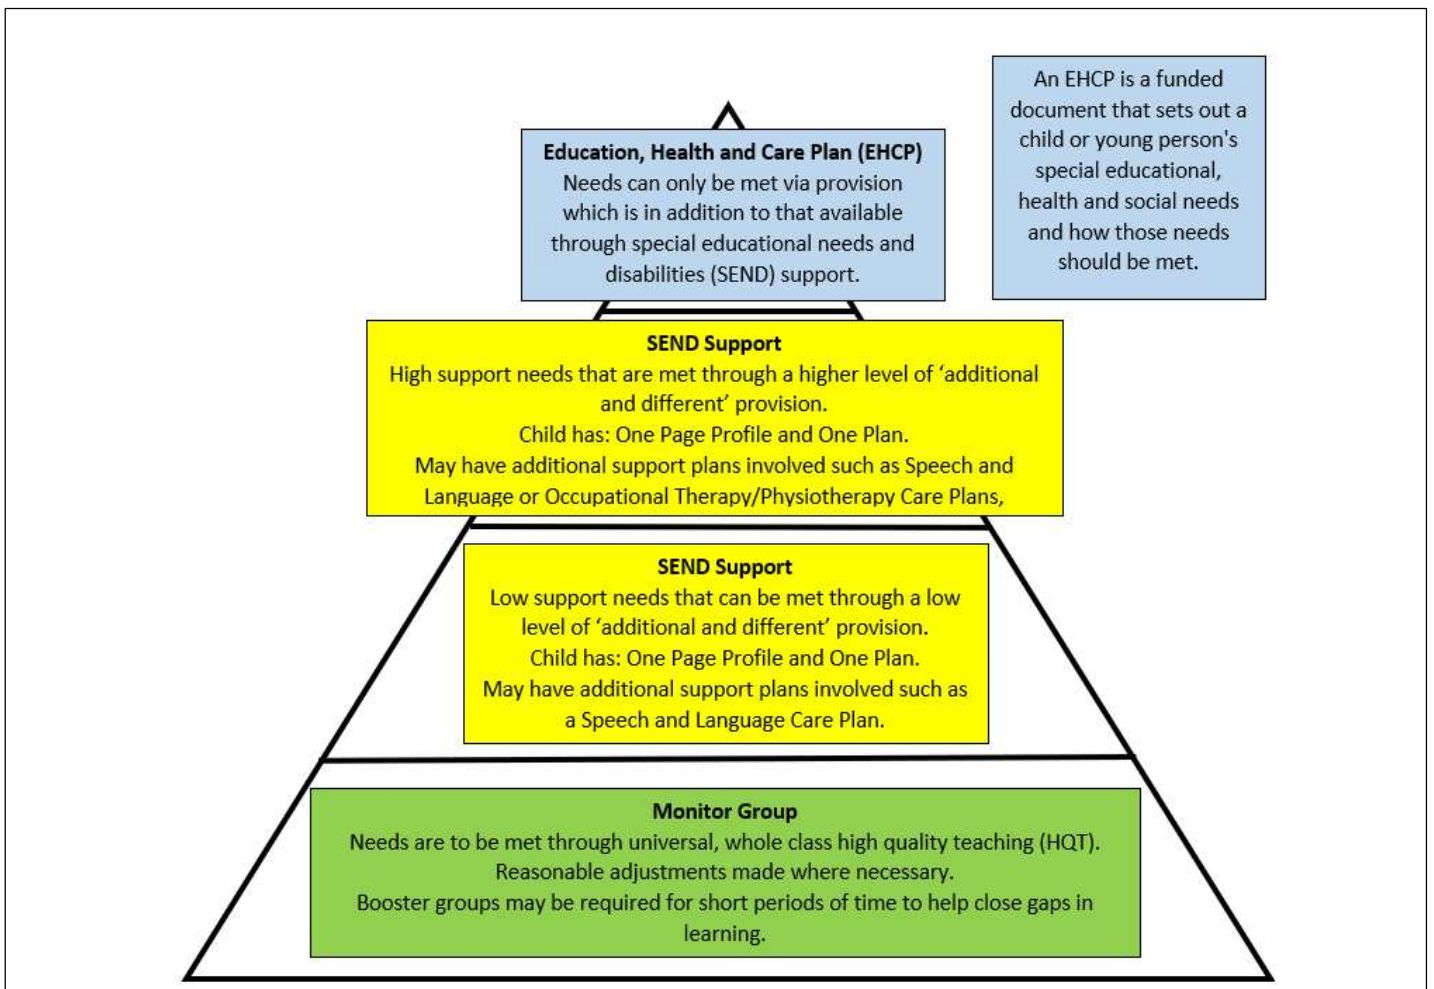

The Code of Practice (2015) has the following definition of the graduated approach:

'A model of action and intervention in early education settings, schools and colleges to help children and young people who have special educational needs. The approach recognises that there is a continuum of special educational needs and that, where necessary, increasing specialist expertise should be brought to bear on the difficulties that a child or young person may be experiencing'

(p. 280).

SEND support takes the form of a four-part cycle through which earlier decisions and actions are revisited, refined and revised with a growing understanding of the pupil's needs and of what supports the pupil in making good progress and securing good outcomes.

Like all schools, we have a 'graduated response' to meeting pupils' needs:

10. SEND support group/SEND register

Children are included in our 'SEND support group' if they need additional intervention support in addition to high quality teaching (HQT) and are placed within yellow or blue bands in triangle above. This means they are recorded on our SEND register. All parents are invited to discuss their child's progress with the class teacher in the Autumn and Spring term at formal parent consultation meetings. A review of the One Plan is also sent home in the Summer term accompanied with the invitation to discuss the plan with the CT should they want to do so. The school SENDCO is also available to book an appointment with at all these points in time, should the parents or carers wish. If it becomes apparent that your child needs additional support you will be informed. A One Plan is created by your child's CT for every child in the lower yellow band on the SEND register (titled SEND Support). This clearly reflects the 'Assess, Plan, Do, Review' cycle which personally outlines provision your child receives, based upon ongoing assessment.

If your child needs ongoing support and more complex and higher support needs are present, they may require a One Planning document with a different format and you will be invited to discuss their needs with the SENDCO once each term, in addition to your parent consultation appointment. This will include a discussion on what is working well and not working well yet, both in and out of school, and highlights your child's strengths and barriers. Outcomes for the year will be discussed and the

strategies and approaches that will be put in place. Children are encouraged to engage with this discussion as far as possible. Class teachers will join these meetings as regularly as they are able.

While most children will progress through the support of our graduated levels of provision, some pupils, whose needs have or haven't already been formally diagnosed, have more complex requirements. If we feel that your child does not seem to be making good progress despite the additional intervention support offered, we may suggest that we try to access a higher level of support through an 'Education, Health and Care Plan'. This replaces the 'Statement of Educational Needs' from September 2014. This is a statutory process which involves applying to our Local Authority for additional support.

The Essex Educational Psychology Service has provided schools with 'Provision Guidance' which helps teachers and SENDCOs to select appropriate strategies and determine the level of support your child requires.

'With high aspirations, and the right support, the vast majority of children and young people can go on to achieve successful long-term outcomes in adult life. Local authorities, education providers and their partners should work together to help children and young people to realise their ambitions.'

Code of Practice 0-25 (2015) Page 28.

11. Responsibilities of class teacher

- Identify each child's needs and skill levels and plan to match these needs to ensure progress;
- Create a One Plan for each child on the lower yellow band on the SEND register within their class and rigorously follow the 'Assess, Plan, Do, Review' cycle;
- Meet termly with the SENDCO to review One Planning documents;
- Attend One planning meetings as regularly as possible;
- Read the child's personal file and any associated reports;
- Advise the parents or carers of any concerns;
- Identify the changing needs of all pupils as they progress through school and address these changes as quickly as possible;
- Contribute to behaviour logs where necessary;
- Display and provide visual timetables for all the class;
- Provide reports for outside agencies, in liaison with the SENDCO;
- Monitor and assess progress and maintain appropriate records;
- Ensure that delivery of the curriculum allows each child to experience success;
- Fulfil all duties required by the class teacher as defined by the Code of Practice;
- Ensure a SEND friendly classroom is provided.

12. SEND Governor:

Mrs Roz Coleridge is our lead SEND Governor and is responsible for raising awareness of SEND issues at governing body meetings. Mrs Coleridge works with the SENDCO to gain a clear working knowledge of the SEND Code of Practice and be aware of their school's systems for SEND provision.

Mrs Coleridge supports the SENDCO to:

- Ensure that the school's SEND budget is appropriately allocated to support pupils with SEND;
- Give up-to-date information to the governing body on the quality and effectiveness of SEND and disability provision within the school;
- Help to review the school's policy on provision for pupils with SEND.

13. Admissions

Meadgate Primary School welcomes all children, including those with special educational needs and disabilities. We aim to be fully inclusive. Children with SEND are admitted to school under the same arrangements as all other children, in accordance with our Admissions Policy.

14. Transition from Preschool/Nursery to Early Years Reception Class:

The SENDCO will contact each feeder preschool/nursery to discuss any individual's special educational/health needs. If the child has any identified special educational needs the staff work closely with the family and setting to ensure the child's needs are met. The children and their families are invited into school on a number of occasions to meet the staff and familiarise themselves with the setting. Families will be invited to discuss any medical needs with the SENDCO or other relevant member of the staff team and an Individual Care Plan will be written to support the child when they start school where needed.

Children identified with SEND receive a transition package which will suit their requirements, this could include:

- Staff making a transition booklet, which could include pictures of staff and different areas of learning. The child would then be able to look at the book at home with an adult and familiarise themselves with the setting before starting school.
- Additional transition visits to school in the summer term before the child starts.
- Staff attending transition or review meetings before a child starts.
- Staff visiting the child in their own setting.
- A carefully tailored starting school package which may include graduated start where required.
- Meetings with parents and carers.
- Making slight changes to preschool/nursery provision in the summer term to prepare the child for full days in school.
- If necessary, the SENDCO will contact external agencies for support.

15. Criteria for exiting the SEND Register

A child may be removed from the SEND Register if:

- Their progress is such that they achieve what is broadly expected for a child of their age.
- The child no longer requires support which is additional to or different from what is normally provided within the class.

Parents/carers will always be informed if their child no longer requires SEND Support. If a child is taken off of the SEND Register, their progress will continue to be closely monitored by their class teacher and the SENDCO.

16. Equal opportunities

The school is committed to providing equal opportunities for all, regardless of race, faith, gender or capability in all aspects of school. We promote self and mutual respect and a caring and non-judgmental attitude throughout the school.

17. Concerns/complaints

We are committed to having an 'open door' policy; the Headteacher (Mr Figg), Head of School (Ms Meager), class teachers and SENDCO are available to parents to discuss concerns. Please contact the office to make an appointment if an in depth discussion is required. We will always do our very best to resolve any situations where a parent is dissatisfied, but if parents feel that their issue is not resolved, they may see a detailed copy of our Complaints Policy via the link:
